

Windows Quality

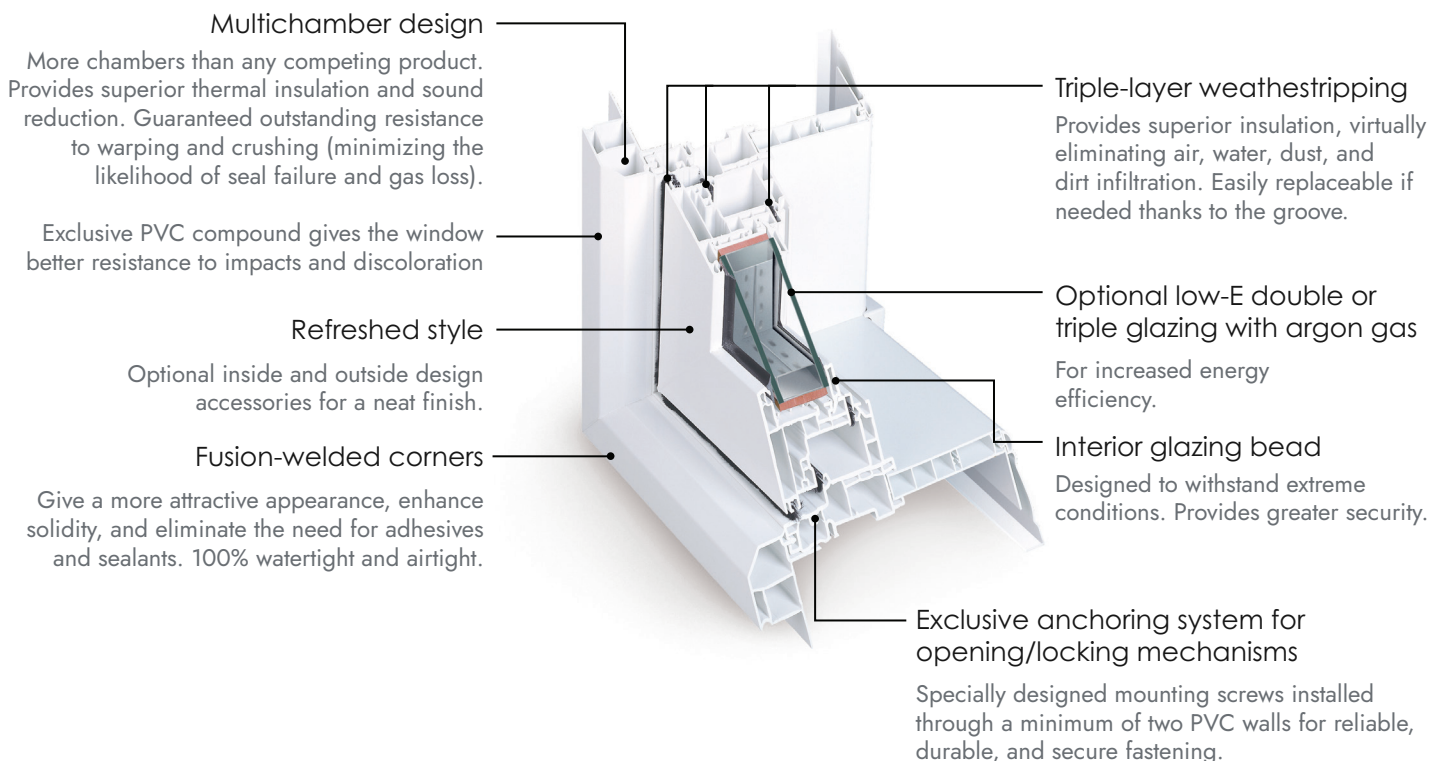

We take pride in manufacturing and installing only top quality products, because your home matters. Our windows exceed rating standards and most glass options are energy star rated for our climate zone, saving you energy costs. Visit our showroom and see the difference quality makes.

Our window profiles have more chambers than any competing product, resulting in superior energy performance and strong, stable frames that won't crack or warp, as well as excellent noise reduction.

Extreme performance and durability

In all weather conditions and over the years, these windows give you the best protection and the greatest comfort a window can provide. This remarkable performance is the result of constant attention to the smallest detail.

Windows Quality

Outstanding performance

Our windows undergo the most stringent compliance testing performed by an independent laboratory. They always earn the highest ratings in national classification tests.

	Size Tested mm (in.)	U.S. Standard AAMA/WDMA/CAS 101/I.S.D/AA440-08
Casement window S-3000	800 x 1800 (32 x 71)	CW-PG80-C
Awning window S-3050	1200 x 800 (48 x 32)	LC-PG80-AP

We're into Conservation®!

Our windows not only offer unique and distinctive technical features — they're also all specially designed to save energy and preserve natural resources. Longer product life, and the best energy performance in the industry!
